“ *I will always remember aunt Beas beautiful connection with nature. Im so grateful she shared that connection with my brother and me and everyone she loved. Every time I think of Aunt Bea, the first image that I see are her gorgeous sparkling eyes they were always shining and full of light. And also full of mischief! She would say something and I wouldnt always know for sure she was joking around until I saw that glint of mischief in her eyes then we would burst out laughing! Aunt Bea always gave some of the best hugs too Im so grateful I was recently able to experience a few of her amazing hugs when I was there in July. I will cherish those moments forever.*
