“ Lois-I know that this this is late and I trust that the funeral home will get this to you. I am so pleased that you called today. It was so kind of you to do so. My feelings for Bill is mutual. I respected Bill so very much. I never knew a man who lived the 10 Commandments as well as Bill and I know that he is now rewarded I Heaven. His children and grandchildren gave him a great tribute in their presentations. Bill was not only respected by me but the rest of us in his professional life. I regret that I did not make a greater effort to speak with you and your family after the funeral, I should have done so. Dr. John Talbott and I reminisced about Bill and the times we had with him. We are in a "coffee" group of former vo-teckers that meet at the Hampton Inn, Stillwater at 10 o'clock every Tuesday. If you are ever in Stillwater at that time, we would be so happy for you, or your children to come by. We would love to visit.--John

“ Mr. Powers was the best and most personable teacher I had in my school days at Stillwater High School (SHS'61). He advised the FFA and, in my year as President, helped me write my presentation; including jokes - they worked! I searched a time or two but unfortunately was not able to reminisce with him before his passing.--Jack, Boise, Idaho
