“Oh dear Popa.. it's nights like this I almost pick up the phone to call you and then realize that you aren't there to call.. I don't understand how things in life can go like this. None of it was supposed to happen like this. I don't understand why God would make such a painful thing be apart of life. I'm tired of death and some days I'm tired of life. I don't know what to do.. I don't know what the next step is.. I'm tired of crying. I'm tired of going to funerals. I'm tired of there always being an empty chair that no one can fill.. Popa, I miss you. I really need you here.

“ Hey Popa! Christmas is coming up so quick and it seems like everywhere I look I can see you smiling and laughing! You loved Christmas so much! We went and looked at Christmas lights the other night and watched the Christmas Parade.. I heard this song and it made me think of you!! December hasn't changed This town looks the same They still light that tree in the city square There's red, white, and green shining everywhere And I wish you were here And I wonder Is the snow falling down on the streets of gold Are the mansions all covered in white Are you singing with angels "Silent Night" I wonder what Christmas in heaven is like There's a little manger scene Down on Third and Main " " " " I must have walked right by it a thousand times But I see it now in a different light 'Cause I know you are there And I wonder Are you kneeling with shepherds before him now Can you reach out and touch his face Are you part of that glorious Holy night I wonder what Christmas in Heaven is like Is the snow falling down on the streets of gold? Are the mansions all covered in white? Are you singing with angels "Silent Night" I wonder what Christmas in Heaven is like **I love you Popa oh so much! I would give so much to just tell you I love you one more time.. But soon and very soon Jesus is coming back and We will be together!!

“ I believe he msrperiesents Bush's proposals. But that tax waver idea is a smart one. And of course I like the whole idea. But unfortunately it will never be implemented. Old people vote. And they vote themselves into the pockets of the young and the workers. Democracy will not solve that without a major crisis. I predict we will have to wait for the collapse of the system, before we will see any reform.
